The Index is compiled from the last edition of THE TIMES

The editions are denoted by stars in the top left-hand corner of the front page. Thus ** denote the earliest edition, each subsequent edition having a star removed.**

References to matter appearing only in the earlier editions are given thus : (4*) = ** edition ; (3*) = *** edition, &c. Changes of page or column are also noted.**

In each entry the first numeral indicates the day of the month and the second the page. The letter in italic type indicates the column of the page: for reference purposes the columns of each page are supposed to be lettered from left to right—a, b, c, d, e, f, g. Thus JULY 16, 9c denotes the issue of JULY 16, page 9 and column 3.
